6TH ANNUAL ASIA-PACIFIC CHOLANGIOCARCINOMA CONFERENCE

**NOVEMBER 2023
WEDNESDAY**

**NOVEMBER 2023
THURSDAY**

Dear friends and colleagues:

On behalf of the International Cholangiocarcinoma Research Network (ICRN) and the Cholangiocarcinoma Foundation (CCF), we are pleased to invite you to participate at the **6th Asia-Pacific Cholangiocarcinoma Conference on November 1st, 2nd to be held at Tata Memorial Hospital, Mumbai, India.**

The 2023 Conference will build upon the foundation laid at the prior Asia Pacific Cholangiocarcinoma Conferences and to provide the opportunity for interested individuals to learn more about the advances in research, treatment and care of biliary cancer patients.

The program will seek to develop sustainable participation of the medical and research communities from North America, Europe and Asia in the field of cholangiocarcinoma/biliary cancers by:

1. Increasing the knowledge and understanding of attendees about key issues central to the prevention, diagnosis, treatment, and cure
2. Identifying gaps and gathering consensus on rapidly changing advances in basic, translational, and clinical research
3. Stimulating cross-cooperation and sharing best practices by developing, strengthening, and supporting collaborations
4. Fostering dialogue and inspiring innovation

We also request the participants to share their work and send their abstracts. Important abstracts will be discussed during the conference oral presentation session and during poster presentation.

We would wish to encourage colleagues from around the world to participate in the conference. Look forward to seeing you in Mumbai.

Sincerely,

Milind Javle

Co-Chair, 2023 Asia Pacific Cholangiocarcinoma Conference
MD Anderson Cancer Center
